

The Tokyo Embassy Swamp Chief fails to recognize..... THERE is NO LAWYER in JAPAN WHO can help fight back against JAPAN CORRUPTION.. This GOV has to intervene..

Dear Q,

I received this letter from the Swamp Chief who needs fired and to be drained.

His letter confirms that the entire Consular Section @ State Department's Tokyo U.S. Embassy have sat on, for at least several years, "exhaustive- (irrefutable recorded, transcript, and witness evidence of ATROCIOUS CRIMES, serious violations of International law and human rights elevated to Crimes Against Humanity and caused Damage to National Security of U.S.) - information about your claims that you have provided to us over several years".

highly coordinated and well planned violent crimes, barbaric acts, that include the plastic bag suffocation, strangulation, withholding critical medical treatment on my eleven year old son, followed by monstrous human experimentation (deliberate starving of my son, while doctor withheld he was studying and publishing scientific article on results of devastating effects of reduced calorie) on a US child and other flagrant violations of international law and human rights.

The wide spread heinous crimes, above mention, all began two days after coercive threats – that were aimed at my son, Jimmy, were made by an Japan bureaucrat, **Nakajima Yoshiko, an influential coordinator, from the Foundation for Biomedical Research and Innovation (IBRI) –the main coordinating organization of the largest life science cluster of research institutes & hospitals, over 275 biomedical companies in Kobe Japan-** they claim, are simply a medical (plastic bag suffocation and strangulation) mistake.

I announced at Stem Cell Scientist corporate board meeting, (because of no cooperation of auditor, executives, or scientists involved) it was my legal obligation to report evidence of multiple schemes of fraud uncovered in internal investigations to the shareholders, investors, and the Japan police: Stem Cell Scientist CEO - **Kenzo Nakajima**, and three leading RIKEN scientists. Professor Shinichi Nishikawa, Professor Yoshiki Sasai, and Hitoshi Niwa M.D., Ph.D. were involved in scientific misconduct and FRAUD.

From March 2006 until Dec 14, 2007, Stem Cell Sciences KK., CEO - Kenzo Nakajima, and three leading RIKEN scientists deliberately withheld critical information from investors and the public. The technology they were promoting -hMADS human multipotent adipose-derived stem (hMADS) cells technology - did not exhibit (the only patentable claim) immune-privileged behavior or HLA-I (low expression) and therefore would not escape immune surveillance, and would not allow Long-term engraftment of hMADS cells in non-immunocompromised patients. They deliberately mislead the public and investors - evidence showed lost close to three million. (Professor Shinichi Nishikawa, Professor Yoshiki Sasai, and Hitoshi Niwa M.D., Ph.D., are the very same scientists involved in STAP CELL SCANDAL) The scientists, who despite the scientist's deceitful withholding critical information from shareholders had received increased bonuses, salaries and benefits, while knowingly withholding scientific evidence, and allowing

fraudulent business presentations and press releases to be presented to investors and the public.

THE FOUNDATION FOR BIOMEDICAL RESEARCH AND INNOVATION:

our email evidence shows that an Kobe Japan bureaucrat **YOSHIKO NAKAJIMA** was involved in multiple serious crimes including egregious violations of public trust, a co-conspirator in committing fraud, conspiring to cover up the evidence of fraud, forceful coercion, and blackmail to my wife, threats aimed at our eleven year old son. Coercion of my wife and I, and the newly elected CEO of Stem Cell Sciences KK – Dr. Gojo Satoshi.

Kobe Japan bureaucrat YOSHIKO NAKAJIMA, as a public official, had legal and moral obligations to not engage in coercion, threaten my wife and I, to force us to join a conspiracy to cover-up evidence of multiple schemes of fraud her husband – Kenzo Nakajima, and scientific misconduct (fraud) of three leading RIKEN scientists; December 26th, 2007, YOSHIKO NAKAJIMA threatened my wife that if we continuing to report them “it would become a problem for our disabled son”, Jimmy, who was in the hospital for a seasonal cold.

December 28th, 2007, two days later, our eleven year old disabled son, Jimmy, was suffocated with a plastic bag; he was found in critical condition with a strangle mark around his neck, the military medical doctors suffocated our son, were withholding medical treatment, and denied any involvement.

December 24th 2007, Stem Cell Sciences K.K., company new board members held an emergency board meeting to. In attendance: Dr. Gojo Satoshi, Mehmet C Oguz (aka Chimaki Furusawa), James and Miki Ryan. In the meeting, James Ryan announced: the board members voted in agreement without demur, and passed the following board resolutions: (i) -whether the misconduct was intentional or unintentional-the board had moral and legal obligations to disclose to shareholders -and police- the evidence of fraud committed by the former CEO - Kenzo Nakajima, and the scientific misconduct of three eminent RIKEN scientists (Professor Shinichi Nishikawa, Professor Yoshiki Sasai, and Hitoshi Niwa M.D., Ph.D. the same three involved in STAP cell scandal) uncovered during the company's internal investigations. (ii) The former CEO, Auditor, and scientists must be held responsible, apologize to shareholders, disclose withheld information (iii), and return to investors' the money they invested. (The CEO's spouse was an influential bureaucrat from the Foundation for Biomedical Research and Innovation (IBRI) the main coordinating organization of the largest life science cluster of research institutes & hospitals, over 275 biomedical companies in Kobe Japan.)

December 24th, 25th, 26th The Kobe bureaucrat began intimidation of Dr. Gojo Satoshi, and James and Miki Ryan. Trying to intimidate us to cover-up evidence of scientific misconduct, and fraud –valued into millions- the scientists and bureaucrat's family were involved in, and benefited financially from.

December 25th PM: 12:01, An email from Yoshiko Nakajima (A bureaucrat -the Foundation for Biomedical Research and Innovation (IBRI)) -to the newly elected CEO of Stem Cell Sciences K.K. Dr. Gojo Satoshi. In the email the bureaucrat was claiming

that everyone (who is everyone) worries about Dr. Gojo's, and her husband's future, and she tells Dr. Gojo to be very careful in his future actions because many people (who?) also worry about what his (Dr. Gojo's) position in society will be after being engaged in scandal. The bureaucrat then gives Dr. Gojo instructions to delete her email and do not show anyone her email. Why?

December 26th 1:06 AM Wednesday: email from (IBRI) bureaucrat Yoshiko Nakajima explained that their mistakes -misconduct that benefited them financially- are comparable to a medical mistake in Japan, and after an apology would not be investigated.

December 26th, 2007, a telephone call from (IBRI) bureaucrat Yoshiko Nakajima to Miki Ryan (Jimmy's mother) explaining that the call was a "last warning" to not report, and "it could become a problem for son" and "your position in society would be damaged" if we continued.

December 28th, 2007, Friday, two days after the coercive threats were aimed at our eleven year old son, Jimmy, Without informed consent or any known medical reason, Japanese military medical officers, Dr. Wakamatsu Hajime and Dr. Reiji Kojima (admit on tape recorded evidence) placed a plastic bag over-the-head of Jimmy, suffocated and strangled him with a plastic bag. Jimmy was found in critical condition, he had a red strangle mark around his neck; the military medical officers had withheld critical medical treatment, were covering up the atrocity.

The doctors inflicted a child with severe pediatric brain injury and left in a vegetative state. (Jimmy was staying and had fully recovered from a cold, and was expected to be released on the morning of 28th but Dr. Kojima refused to release him. Suspicious behavior, because It was the last Friday of the year and many children without symptoms had returned home because of holiday.)

From 2008- end of 2010, all the recorded, medical records and witness evidence that proves beyond a reasonable doubt, a heinous crime of suffocating, strangulation, and withholding medical treatment on our eleven year old son was given to Tokorozawa Police. The Police accepted the evidence and clearly communicated they were investigating.

The US Embassy in Tokyo was informed of the crime, they explained that Japan and US had a strong alliance, suggested there was nothing they could do, and trust the Japan police and judicial system. WORST ADVICE and BIGGEST MISTAKE OF MY LIFE to listen to them!!

THE JAPAN POLICE LIED! They failed to even launch proper investigations, and delayed until end of 2010, when they falsely claiming they lost the copies of the evidence we gave them -that proves beyond a reasonable doubt (They admit the crime on tape), and that because of the coming three year statute of limitations was coming soon which prevented them from re- launching investigations.

RETALIATION

Evidence that proves beyond a reasonable doubt: **October 22, 2010**, Arblast CEO, Akira Kitagawa, wrote In the e-mail to my wife, Miki, that the Foundation for Biomedical Research and Innovation (**IBRI** - the main coordinating organization of the largest life science cluster of research institutes & hospitals, over 275 biomedical companies in Kobe Japan) **Nakajima Yoshiko**, (the same psychopathic influential **IBRI** coordinator that coerced our family to cover up crimes and made threats aimed at our son Jimmy two days before he was suffocated,) are planning to establish a new company with other companies, Shigeru Kinoshita ophthalmologist and Foundation, and to introduce patents.<https://www.jimmysthemis.com/blank-4>

wide practice of Coordinated violations of International law and human rights, atrocities tolerated or condoned by Gregory Gardner's extreme incompetence and insensitivity to other people's suffering heinous acts crimes condoned by his deliberate inaction causing severe damage to worsen.

Because of Mr. Gregory Gardner's failure to assist our son, who was being deliberately being starved to death in unimaginable suffering (**Amounts to Child-Human Experimentation -- a CRIMES against HUMANITY and has no Statue of Limitation**).

Jimmy's hip bone was sticking outside of his body, directly caused by the suffocation, denying critical medical treatment, and the deliberate starving of Jimmy -without informed consent, or medical reason, Jimmy was denied the critical minimum calories needed to maintain vital organ function to sustain his life and bone growth (BM).

According to recorded evidence -that proves beyond a reasonable doubt- verbal statements of Dr. Saito Hiroshi, All decisions to deliberately starve my son, Jimmy, until his bones popped out of his body, were made by Dr. Mitsuko Yuzawa, an ophthalmologist, who was elected as president of Surugadai, NIHON UNIVERSITY hospital, in November 2011. (Also, in November 2011 Dr. Mitsuko Yuzawa scientific collaborator and close friend of Dr. Kinoshita Shigeru, who was involved in coordinated patent theft that caused the destruction of our FortiCell-Arblast USA M&A (Condoned and covered up damage to the National Security).

Because of Dr. Mitsuko Yuzawa, an ophthalmologist, they disconnected my sons life supporting calories, as deliberately starved Jimmy, giving only 800 calories per day- which is grossly inadequate to supply Jimmy's metabolic energy demands which are profoundly increased by severe suffering -metabolic stress- on life-support. They prolonged the starvation until the depletion of all of his body muscle mass, and adipose stores were exhausted, he wasted away as his body turned on itself, and catabolized muscle tissue from his vital organs, including heart muscle and intercostal muscles necessary for respiration, dangerously increasing his risk of pneumonia, respiratory failure, and impairment or loss of his body functions, his only sources to meet energy demands. (**Amounts to Child-Human Experimentation -- a CRIMES against HUMANITY and has no Statue of Limitation**)

(Nazi concentration camps. In practice, Auschwitz prisoners received near 1,300 calories per day, those engaged in labor received near 1,700 calories per day). What

kind of CLINTON KERRY RICE establishment MONSTERS would intentionally ignore, COVER-UP ATROCIOUS CRIMES ON CHILDREN and tolerate such inhumane acts committed on innocent U.S. children?

At the time of me begging the U.S. Department of State, Jimmy, was 19 years old, weighed just over 20 kg, which is less than holocaust Auschwitz concentration camp survivors, caused by the deliberate starving of Jimmy, which caused his ribcage to become horribly deformed and collapse into his heart and lungs; his hips, shoulders are also dislocated and deformed.

Jimmy suffers from severe rickets (rare in developed countries), his growth stunted, he is 4 feet and 1in tall (Father near 6'4" at age 19 yrs.). This could've been prevented if Secretary Clinton's, and your consulate officers would have acted on our earlier pleads; from 2011 we literally begged for urgent assistance, and no one would help Jimmy. This foreign policy blunder enabled human rights violations to worsen into what evidence shows are clearly defined as crimes against humanity that remain deliberately and cruelly concealed and condoned by inaction.

Attention: American Citizen Services
U.S. Embassy Tokyo

In relation to the most recent phone call.

Please forward the evidence that you did in fact make follow up calls, including the names and the position of staff @ Tokorozawa Police Station and the Nihon University Itabashi Hospital who you spoke with, and who claimed that the widespread, highly coordinated and well planned violent crimes, barbaric acts and flagrant violations of international law and human rights, that all began two days after coercive threats – that were aimed at my son, Jimmy, were made by an Japan bureaucrat, Nakajima Yoshiko, an influential coordinator, from the Foundation for Biomedical Research and Innovation (IBRI) –the main coordinating organization of the largest life science cluster of research institutes & hospitals, over 275 biomedical companies in Kobe Japan. are simply a medical mistake.

“We would also like to report that we made follow up calls to the Tokorozawa Police Station and the Nihon University Itabashi Hospital regarding your son but they declined to share any information with us.”

最初に、昨年、メディアを騒がせたニュースに、以下の内容のニュースがありました。ご確認をお願いいたします。
という事だったようです。

ニュースでは、死亡時の体重は約8キロで、3歳児の平均である15キロの半分しかなかった。とも、書かれていました。

当然な事です。体重が半分しかない状態の子供を認識しながら、

『認識できない。』

で、終わるはずがありません。
その異常性は、子供でも分かります。

息子は、2014年に日大駿河台病院から、日大板橋病院に入院しましたが、19歳時に、体重19キロでした。

19歳の平均体重は、63.83kgだそうです。

息子は、平均体重の3分の1しか体重がありませんでした。

息子は、11歳の入院時、30キロほどありましたので、8年後の19歳時に、マイナス11キロだった計算になります。

身長は、1m25cmほどしかありません。

19歳の平均身長は、172.14cmだそうです。

息子は、11歳の入院時に、身長1m28cmほどでしたので、栄養障害・骨軟化症の為、あきらかに身長が停止しています。

国連のホームページに、飢餓と栄養不良について、以下の記載があります。

* 国連ホームページから抜粋 *

栄養不良はどんな影響を及ぼしますか？

栄養不良は、危険なほど痩せる、年齢相応の身長に全く達しない、さまざまな問題を引き起こします。指標には以下のようなものがあります。

発育障害は慢性的な栄養不良の症状で、長期の栄養状態を反映します。栄養状態が良好で健康な子どもと比較して、年齢に対する実際の身長が十分かということから判断されます。

低体重は、栄養状態が良好で健康な子どもと比較して、年齢に対する体重が十分かということから判断されます。

以上の国連の話しからも、分かるように、わたくしの息子は、医療ミスではなく、殺人未遂の未必の故意になります。

Please UPHOLD the law.

Kind Regards

James Ryan

On 2016/06/07 17:27, Jimmys Wish wrote:

Dear State Department Consulate officers,

I am still trying to locate sign PAW I faxed in 2015, and will update when I find.

We are preparing to be harassed or arrested by Japan police, so will be uploading recorded verbal threats made by my Edogawa police threatening Jimmy's mother that they can at any time they want come up with a reason to indict her -if she does not stop complaining.. The Edogawa police illegally seized a bank account and MUFJ

basically stole the money and continues to defame me online, this account was set up to donate Seldon Water Filters to Fukushima.

As you can see from the attached photo MUFJ is violated International Human rights law, without any evidence (that Edogawa police tried to invent a reason but could not) continue to defame me online, and refuse to return money, they also telephoned customers of Seldon technology and told them we were involved in Furikome sagi which deliberately defamed and destroyed a US company business in JApan. No lawyer in Japan has been able to help. because the same Edogawa police also - accidentally- told my wife that the METI Ministry of Economy, Trade and Industry had told them to ?? This is deliberate dehumanization of US citizen and international human rights violation

Any way we are ready to be arrested and ready for a wave of Japanese pathological liars, inventions, and Japan retaliation- so please try to protect me then

Kind regsards

Dear State Department Consulate officers, Please find the attached Contact list and explanation.

Today I spoke with Rachael, who by far and wide is most professional officer as of yet, and I am extremely grateful, but, once again devastated as she has claimed over the phone that consulate officers are only going to make a few phone calls, when it is clear our son is in grave danger, and our livelihood has been destroyed by wide spread international human rights violation; that I am pleading once again for the Department officers urgent help, protection, and to investigate our irrefutable evidence 1,2,3,4 of a disturbing number of gross, and systematic violations of human rights - including barbarous acts committed on our only son, that you consular officers have repeatedly claimed "there is nothing we can do", and have callously refused to help - our U.S. child.

We urge you to investigate our evidence before Jimmy dies, and hold responsible, all of those who failed in their obligations to protect and assist us, and acted with a reckless disregard for the safety of a human life from deliberate inaction.

I am attaching signed PAW with a list of names that must be contacted and the signed PAW I faxed in March; please take note the Japan corruption is clearly more strategic

and everyone on that list has been replaced, and unbearable that we have too many Japanese people caught lying on recordings, and only want to help our son, and hope they will cooperate.

Please mention to the Japan police and government we have hours of evidence that include serious International human rights violations being committed by their police and judicial system, and please understand it is clear that the corruption here is wide spread and clear our family is in grave danger if U.S. embassy officers fail to protect us..

Please add that such heinous crimes would never go unpunished or investigated in USA.

ONCE AGAIN, I AM PLEADING FOR URGENT HELP!

Kindest regards

James Ryan

I will send the newly signed PAW along with the scanned - signed "Privacy Act Waiver" I faxed earlier in March, and still trying to locate the Signed PAW I faxed last year, Police Officer Kimura, Criminal Division, Tokorozawa Police Station has been removed from Jimmy's case.

Tokorozawa police to will be all I can put in name Box; please understand they are CORRUPT and we have them recorded and they should be held responsible

I do not want to beg, or argue with the US Embassy, soi

On 2016/06/02 22:47, Jimmys Wish wrote:

Dear American Citizen Services,

I did not have time to go to the US embassy yesterday before 6pm, and will not be able to make it today, so I will fax, and then send a registered mail of the faxed signed paper.

I am searching for older documents that were faxed in the past also and will be mailing by registered mail to you also.

I need and requesting help and protection for Jimmy (PLEASE HELP)

Thank You,

James Ryan

On 2016/06/01 7:46, Jimmys Wish wrote:

Dear American Citizen Services, Can I please ask the identity of who ever person is who wrote the following:

"To date, we have not received a Privacy Act Waiver form from you"

I would kindly ask -Is this some kind of a cruel joke? Do you know how heart wrenching this is? This is a reason you are going to try to use as to why the US Embassy has deliberately let my son have no human rights and life destroyed in Japan? Could this person PLEASE come to the hospital and tell my son this invention? Could we announce this reason of why it is legal to torture, suffocate, deny critical medical treatment, and starve US Children in Japan to the American Public? I want to know the excuse of why crimes are condoned, so I can add this to the letters that are being sent throughout congress.

FACT: I faxed this several times, and first have faxed -the signed- Privacy Act Waiver in 2011, also faxed in April last year, and this year, and I will print it out -again and sign it again, and fax again today and deliver it again TODAY. I also signed the attached PDF to Sec Kerry, and I will search for the older printed copies I faxed as evidence and will also have evidence uploaded of recordings of embassy staff repeatedly -falsely- claiming there is nothing US Embassy can do to help. COULD YOU JUST HELP JIMMY? WHAT IS WRONG WITH YOU? Is it that difficult to help a US CHILD? unbearable

Some of the Japan people in the attached PDF may have already been removed or replaced -- as Japan seems to be making certain that atrocious crimes against US children remain investigated and covered up, and as evidence clearly shows, if US Embassy does not allow investigation or transparency of the crimes, the corruption in Japan will most likely come after us again, and could next time be fatal.

I do not want to beg and fight for human rights for a child, the US embassy has known for years and have cruelly refused to help, and have repeatedly made false statements-There is nothing we can do to help" **(I have hours of recorded evidence to back up everything I say)**. If it was not for the help we are getting in Washington DC we would have never known that you are legally obligated to help my son. and devastating that we have been repeatedly denied help by various Embassy staff going back originally to 2008 and originally was told by US Embassy staff "to trust Japan police and japan judicial system" I agree that THIS WAS logical advise, and correct until 2011 when Japan police told us they lost evidence and too late to restart investigation as the (3yr) Statue of Limitations was expiring ,which was a lie.

The Japan Ministry of Health, Labor, and Welfare press office also lied to us; we were trying to get the media to launch investigation and the Japan government officials repeatedly told us that they have to wait until Japan police investigation in complete to allow this in press.

It is a corrupt system of deliberate police inaction, (No lawyer has taken our case also) that removes all human rights. and corrupted the courts that allowed two kangaroo courts that destroyed two USA companies, and this is not including Seldon Technologies Japan business.

If you do not help we will most likely be harassed by Japan police as we have been in the past, we have recordings of them threatening Jimmy's mother to shut up or they can at any time find a way to indict her.

It is extremely sick and disgusting that crimes are allowed to go uninvestigated and unpunished, and hidden by deliberate inaction. IT MUST STOP BEFORE Jimmy dies.

I will also deliver the signed privacy act form and will video me delivering it to the front of Embassy, so we do not lose any more critical time.

From past experiences (pleading you to help a child)I do not believe you will help Jimmy, and most likely do nothing; so I am will continue to push congress members to urgently investigate Tokyo consulate officers until you help Jimmy.

COULD YOU PLEASE JUST HELP Jimmy a US child and just put in 1% of the effort you do for when Okinawa crime happens and accuses US military .. I am not accusing the Japan military medical officers, I have the Japan military officers repeatedly lying and than admitting they suffocated my son on tape recorded evidence (US Embassy has known about for years and have done nothing), The US Embassy has also known my livelihood, and business interests have been destroyed by system wide corruption that is a clear violation of international law .

Why is this allowed in 2016? Please do not attempt to reply that the US Embassy has not known for years, we do not have time to fight with the US Embassy officers and I have deepest shown respect and honor to US government, but could you please help my son and allow transparency so the Japan public can see evidence, and what devastation happens when corruption the system is condoned.. They deserve to remove corruption from their system.

It is horrible that Harambe the gorilla would most likely have more empathy, and protection for my son than US Embassy staff

James Ryan

James Ryan
Hakone, Sengokuhara 89-1-201, 250-0631 Japan
The Honorable John F. Kerry
US Department of State
2201 C Street, NW
Washington, DC 20520

May 25th, 2016

Dear Secretary Kerry,

My wife and I greatly admire you, and your extraordinary efforts to ensure the protection of U.S. citizens abroad, which "ranks among the State Department's highest priorities"⁵; I am writing to appeal to you for assistance, and protection for our beloved son, Jimmy, and urge you to investigate why our child was suffocated, tortured, denied critical medical treatment, starved, and now near death with his hip bone sticking out, as a direct consequence of gross and systematic violations of human rights being recklessly condoned by the deliberate omission of the Japan police, and U.S. consular officers in Tokyo Japan.

Our appeal to you, demonstrates just how critical the State Department's Bureau of Democracy, Human Rights and Labor (DRL) efforts are to the U.S. foreign policy in promoting democracy, and protecting human rights globally⁶. Clearly, when officers fail in legal obligations⁵ to assist, protect, or even just to report our **IRREFUTABLE EVIDENCE**^{1,2,3,4} of atrocious human rights violations committed against U.S. citizens in Japan, such deliberate omission implicitly condones, facilitates the continuation, and worsening of abuses.

Horrifying incompetence or corruption; in spite of years of repeatedly appealing (literally begged from 2011) Secretary Clinton's, and to your Department officers for urgent help, protection, and

investigate **irrefutable evidence**^{1,2,3,4} of a disturbing number of gross, and systematic violations of human rights - including barbarous acts committed on our only son, consular officers have repeatedly claimed “there is nothing we can do”, and have **callously refused to help – a U.S. child**. We’ve confirmed, officers had legal and moral obligations to assist us, and have lied to us, or **grossly incompetent in foreign policy**. We urge you to investigate our evidence before Jimmy dies, and hold responsible, those who failed in obligations to protect or assist us, and acted with a reckless disregard for the safety of a human life from their deliberate inaction.

Unimaginable atrocity; irrefutable evidence clearly shows, Japan military medical officers –admit on **recorded evidence**^{1,2,3}, put a **plastic bag** over our **eleven-year-old** son’s head, **suffocated** our disabled child, inflicted him with such a severe pediatric brain injury that it left him in a vegetative state -eyes locked open, a life threatening fever –exceeding 107°, and dependent on life support to remain alive. The medical unit had then colluded to cover up the atrocity, made no attempt to contact child’s parents, and withheld critical medical care on a child they knew^{7,8} was dying -from blood tests they took just after they suffocated him; they then abandoned our child, until I returned and found Jimmy suffering, with a red mark around his neck; where medical officers had initially insinuated (falsely accused) that I could have inflicted the severe injury, until we caught them repeatedly lying over and over -on **tape recorded evidence**^{1,2,3}. Likely motive*[\[1\]](#)

Jimmy, a human being, a U.S. citizen, is denied even the most basic human rights in Japan; he is denied Department officer’s assistance, protection or investigation; he is cruelly denied Japan police investigation or protection; we are denied all freedom of expression (amoral self-censorship of establishment local and foreign media, recklessly disregard the safety of a child by deliberately withholding any investigation or lifesaving transparency to a child who is NOW close to dying because heinous crimes are widely condoned); We are denied human rights to seek any redress in Japan’s egregiously corrupt courts. This horrifying atrocity has caused irreparable harm, and unimaginable suffering to Jimmy; as our livelihood and business interests destroyed, and our family terrorized -mainly because such horrifying violations of international human rights law remain deliberately concealed and condoned by dangerous, and unconscionable omission.

Clearly, the Department’s officers reckless omission sent a profoundly immoral and dangerous message throughout Japan, that no matter how heinous the crimes -committed on a U.S. child, no one will be investigated or be held accountable; horrifying violations on a 11yr old child that still remain intentionally ignored, uninvestigated, and tolerated; not even mentioned in the State Department’s (2010-2015) Human Rights Reports, which conceals a heinous atrocity on a U.S. child, and grossly misrepresents that the Department officers will protect or assist U.S. citizens abroad -putting American lives and businesses at a grave risk. Clearly, such prolonged breach of duties enabled violations to remain hidden and systematically spread into further horrifying cruelty, and unusual retaliatory punishment, and unprecedented corruption. -

After the suffocation atrocity of Jimmy (dependent on life support, his life repeatedly in danger, multiple organs dysfunctioning, suffered several cardiac arrests, unimaginable suffering, and denied basic human rights, including cruelly denied safety of transparency from corrupt establishment media), my wife and I had worked extremely hard for several years -with the help of experts- to bring together the technology, scientists, and surgeons from around the world to be involved in our international regenerative medicine development project; this new company would have enabled us to advance regenerative materials to help not only Jimmy, but also other children whose lives are in danger, have no option, and running out of time.

By November 2011, we made breakthrough advancements and completing a merger & acquisition between a US based FortiCell Biosciences and Arblast USA (near US \$200 Million invested into technology), to establish a world leading, and first international advanced regenerative biomaterials company with orphan drug approvals in the world’s largest medical markets (USA, Japan, and biomaterials from Hadassah Israel scientists). But naturally, when Japan police, and Department consulate

officers deliberately ignore horrifying human rights violations on U.S. children, and tolerate lawlessness and corruption -as an expected consequence - Japan systematic retaliatory corruption reemerged to devastate our U.S. family –again; as a profoundly immoral group of pathological liars in Japan, including scientists who knew how critical our stem cell project was in developing a treatment to save Jimmy, violated US federal law, and international human rights law, as they conspired with a mentally ill person (whose mental illness was so severe he was not responding to medical treatment and on government compensation, and had no legal authority, or corporate seal) to forge U.S. federal patents, callously lied to defame, and all benefitted by maliciously destroying our stem cell project for a U.S. child- they all knew was suffering on life support. Moral Evil!

An egregiously corrupt arbitration court in Kobe Japan, violated all established ethical and moral obligations to uphold international law, and commonly accepted standards of justice, by allowing a mentally ill person- -to file a Kobe company into bankruptcy, and seized patents (near \$50M invested into technology then given to a Kobe Institute) that were licensed exclusively to Arblast USA (They did this while my wife and I had left Jimmy’s side, and traveled to USA to finalize Forticell - Arblast USA M&A). Likely Motive*[\[2\]](#)

Evidently, amoral omission jeopardized National Security of USA, tolerating lawlessness, corruption and violations of international human rights law, not only caused severe economic ruin to our M&A between FortiCell and Arblast USA, but also caused Seldon Technologies - a USA carbon nanotube technology world leader - who I was exclusively representing in Japan, to suffer irreparable economic ruin, by lost reputation, loss of orders, and loss of Japan market business.(Still being illegally defamed online NOW).

**A U.S. CHILD IS SUFFOCATED,
TORTURED, ABANDONED, DENIED
CRITICAL MEDICAL TREATMENT, and
STARVED. HIS HUMAN RIGHTS are
EGREIOUSLY VIOLATED. FROM 2011
DENIED PROTECTION or ASSISTANCE
FROM STATE DEPARTMENT OFFICERS.
