2006-Present

Global Expats & www.global-xpats.com, Wash., DC - Founder

The idea for Global Expats and www.global-expats.com originated in 2005; utilizing what is now called a "local search directory" business model, to generate the revenues necessary to provide a comprehensive solution to the dual-career challenges of the expat family, along with a solution to their adaptation. The idea transforms the antiquated non-profit 'Expats Wives Club' (www.fawco.org) model into a for-profit model. Original market research showed revenue potential of \$1B+usd annually, and is what this model (ie. tripadvisor.com), is currently generating; thereby demonstrating not only the viability of the project from its inception, but its profitability as well.

For the past decade, the development of the project has been impeded by a domestic violence/divorce in Spain. Spanish family courts, like family courts around the world, are not only failing to protect DV victims; but rather, in the majority of cases, they are re-victimizing them, and leaving them destitute, homeless, destroyed, and without their children. Due to this, millions of children are living with sexually and physically violent custodial parents. Additionally, women are being defrauded of billions of dollars in assets each year by misogynistic court systems, with nowhere to turn for justice. All domestic remedies in my case were exhausted in 2015, and the case will be filed with the Committee on Elimination of Discrimination Against Women (CEDAW) in the coming months.
